# CREATE YOUR OWN MAGIC QUICK CHECKIN/ REFRESH SHEET

## CREATE YOUR OWN MAGIC WITH DENISE MARTINEZ ROSSINI

### QUICK CHECK IN

Read and refresh yourself on Denise's 'Create Your Own Magic Pack' PDF

Idea for the rest of the month:

Schedule in the moons (full moon - releasing old energy, new moon - intention setting) in your diary and plan to do that work look at when you want to work on.

Have a look at what crystals resonate with you from Denise's list and look at working on that area of yourself.

Practice communicating with Angels, perhaps ask a question at the start of the week and then make a note of all the angel numbers you see, then at the end of the week see if there is a message there to help you.

Look at your numerology chart and life path number and use it to build your self image and how it links to your lifestyle desires and manifestations, maybe you needed to hear/read that to get clear on a step forward.

This will give you a very aligned plan and intention for the week/ month.

Share in the FB group any questions or what you are working on.
